The structure is constructed from a high quality reinforced aluminium in a dark grey coloured rust resistant powder coat finish. The color can also be customized. This is complemented by virtually unbreakable bronze coloured 6mm hollow pc sheet roof panels. The panels have anti-UV treatment which reflects strong sunlight whilst simultaneously providing weather resistant thermal insulation. The innovative roofing system provides great sealing performance in severe weather conditions and prevents panels from thermal expansion damage, meaning your carport will provide you with years of low maintenance use.

Protect your car all year round with the Orient Car Shade . Quicker and easier to assemble, more cost effective and less space consuming than a traditional garage or shed, this durable and sturdy carshade features a 6 legged design which provides for wide and easy access to your vehicle whilst shielding it from the elements.

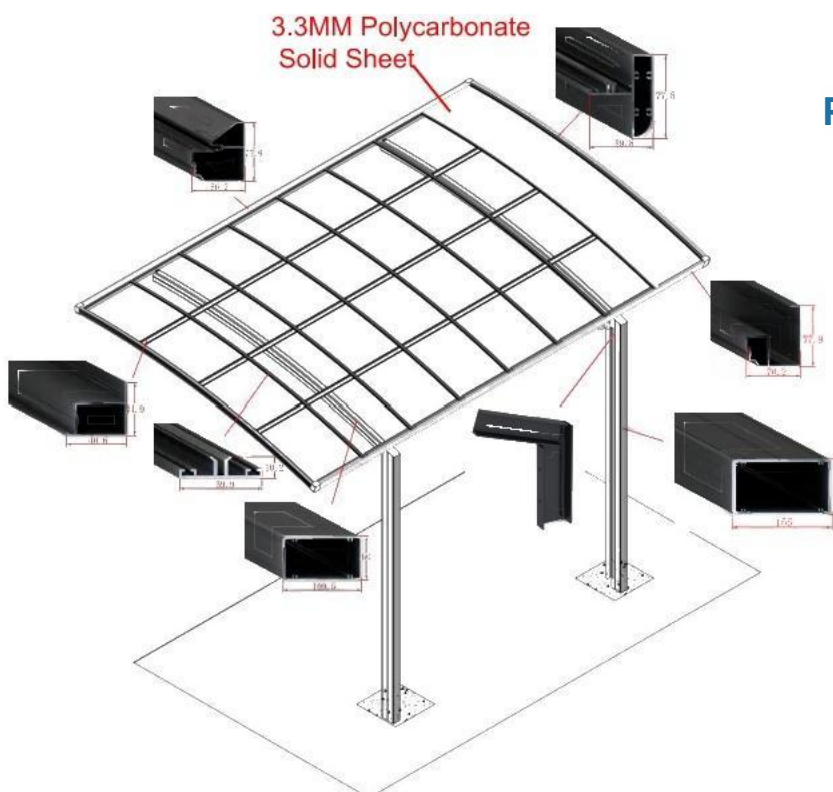

This multi purpose canopy is also ideal for use as a gazebo or sun shade.

- Weight: 90 kg
- Product dimensions: Width 3000 × Length 5000 × Height 2500mm
- Covering area: 15 m²

R Shape Style

Orient R shape is a perfect product of combination of practicality and aesthetics, is one of the most popular car shade.

Pure Aluminium Alloy Structure

The main structure of the R shape carport is made of high-quality, high-intensity aluminum alloy material. It is corrosion-resistant and highly rust resistant.

Powder Coating Surface

Powder coating process make the surface scratch resistance and super strong weather resistance,which greatly improves the service life of the car shade, reduces the decomposition from ultraviolet rays,and keep it new for a long time.

Roofing

The roof is made of sheets. This is a very useful plastic. Although it looks like glass, it has high transparency and high impact resistance, which can filter 90% ultraviolet rays. It is a lighter alternative to glass and a natural UV filter, protects your cars and patio the greatest extent to stay away from rain, snow and UV rays.
