

Versatile Curtains & Blinds

Our Studio Collection offers elegant, easy-to-use window solutions designed for modern interiors.

In this collection you will find sophisticated colors and high-end fabric textures that enhance the look and feel of any space.

The collection features a wide range of designs, rich textures, classic patterns suitable for homes, hotels, and commercial environments.

Designed for comfort and convenience, our solutions can be paired with both manual and motorized control options.

Choosing Versatile gives you peace of mind:
We are committed to exceptional workmanship and quality, and do everything we can to ensure our customers are 100% satisfied.

Curtain Head

Front curtainless head

Rear front curtain head

Metal beads

Circulation rope system

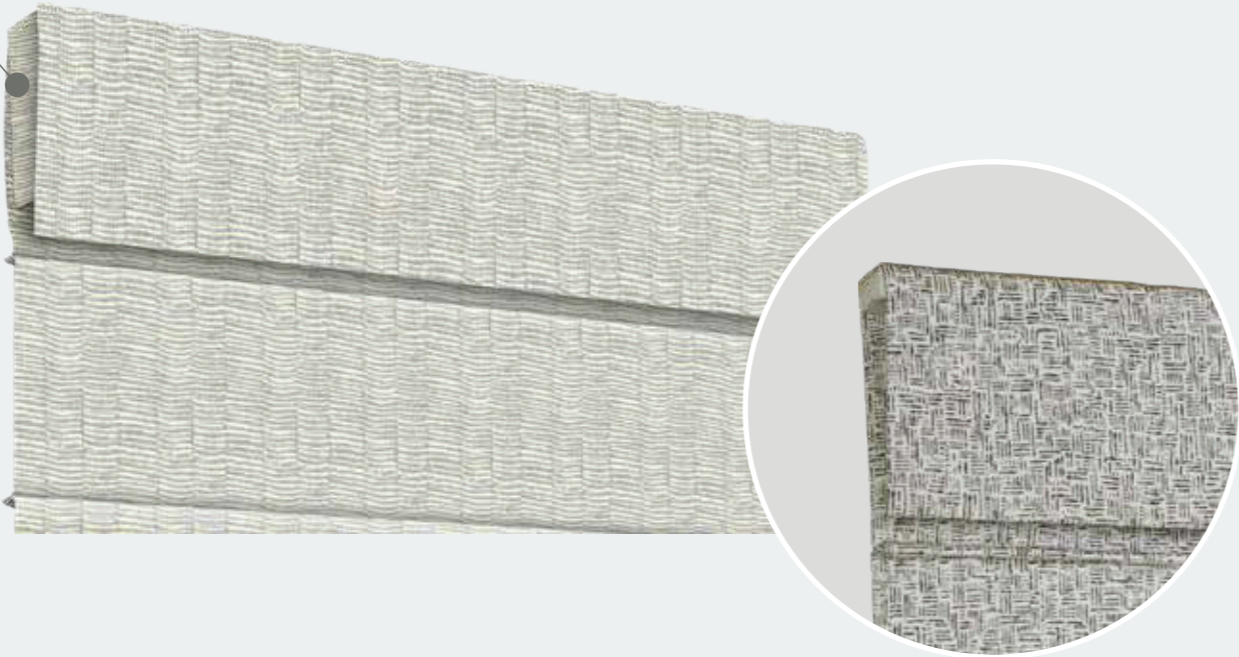

Loop draw cord

Circular bead pulling system

System Selection

Fold Corner

- Cover the accessories on both sides, which makes it more integrated and more beautiful.
- This is an auxiliary option and needs to be purchased at an additional cost.

Pulless system

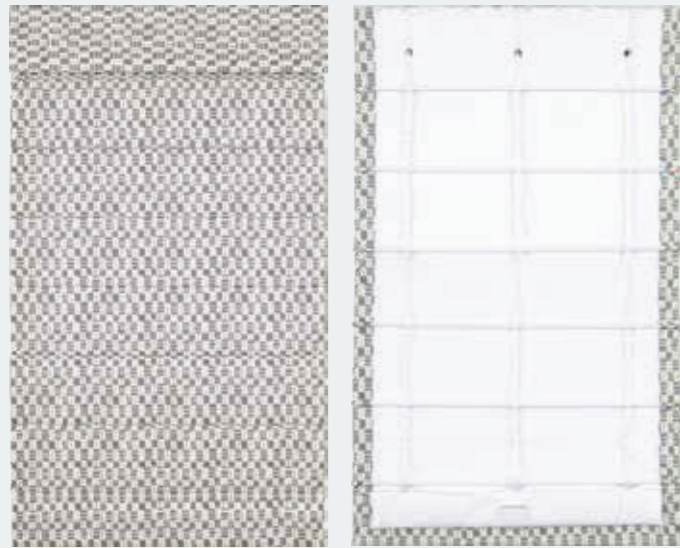

Remote control electric system

Style Options

Back Rod Style

The rod is sewn into the fabric on the back of the finished product and there will be a sewn pocket on the front.

Style Options

Lay-flat Style

The lay-flat front is a single piece of fabric with no seams. The padded seam helps the curtain provide additional support by hiding the rod. When light passes through, a rod shadow is displayed on the front of the finished product.

Front Rod Style

The piping is sewn into the fabric on the front of the finished product and there will be a sewn pocket on the back.

Stackable Style

Each stacked section is made with extra fabric, which allows them to maintain the stacked look of the Roman shade even when fully lowered, with a 3" fold. The stackable back has no additional support, only supported by ropes.

Fabric Features

Exquisite prints, unique pattern designs combined with natural style fabric base.

GREENGUARD certification, energy saving and environmental protection.
